Graduation Rates

Graduation rate refers to how many first-time full-time freshmen completed the course of study within six years of their entrance date. Using this criterion, the current graduation rate of the freshman class in 2015 at DCC is 17%. The graduation rate of transfer students from the same entering class was 29%.

The estimated amount of Student Loan debt the individual would have upon graduation

The average loan amount in combined Subsidized and Unsubsidized for the graduating class of 2021 was \$31,396.

Job Placement Rates for Graduates

DCC has a placement rate of 40% of its most recent Class of 2023 graduates. It should be noted that individuals change careers from time to time, causing this number to change on a regular basis. DCC is pleased to note that 65% of that class also planned to continue their education in various post-baccalaureate and graduate programs.

Acceptance of Transfer Credits including military credits

Students may transfer up to 90 credits toward most degrees requiring 120 credits. This maximum number of allowable transfer credits includes credits from the military, if applicable. Transfer credits may be more limited in a few degree programs.

Any additional requirements including training, experience, or examinations that are required to obtain a license, certification or approval for which the course of education prepares the individual.

Contact your department or academic advisor for more up-to-date information about any additional requirements for your degree program and career path.
